COURT CLERK 2026 – EXCEL PRACTICE TEST 1

Tier 2 / Computer Proficiency Test (CPT)

1. Draw a table with border and enter exactly the following data in Excel Sheet and start from cell A5.

Date	Quantity of Notebooks Ordered	Price of one Notebook	Total Price
17-Dec-23	1250	42.50	
24-Jan-24	875	36.75	
16-Oct-24	2490	55.00	
11-May-25	1680	48.25	
09-Apr-24	3125	31.50	

2. Right align the "**Date**" Column

3. Find Total Price for each stationery item ordered

4. Arrange the columns in descending order as per column **Total Price**

5. Add a new column "**Commission**" after "**Total Price**" column and fill the same with the figure which shall be **7.5%** of the "**Total Price**"

GAME OF EXAMS : HARYANA

Game of Exams Haryana

PRACTICE TEST – 2

COURT CLERK 2026 | EXCEL | TIER 2 / CPT

GAME OF EXAMS : HARYANA

1. Draw a table with border and enter the following format and data exactly. (Start from Cell B6)

Date	Sales Person	Item	Receipt No.	Quantity	Amount
18-08-2026	Amit Sharma	Marker	5281	24	
19-08-2026	Neeraj Kumar	Notebook	5282	27	
20-08-2026	Pooja Verma	Crayon Set	5283	32	
21-08-2026	Rohit Singh	Sketch Pen	5284	26	
22-08-2026	Kavita Sharma	Drawing Book	5285	35	

2. Calculate the amount, if every item has been sold @ Rs. 62/-.

3. Change the format of date to Month DD, YYYY (For example: August 18, 2026).

4. Add a row at the bottom and calculate the total of column amount.

5. Right align the columns Date, Receipt No. and Quantity.

EXAM PRACTICE: Attempt the complete test in Excel before checking the solution.

Game of Exams : Haryana

PRACTICE TEST – 3

COURT CLERK 2026 | EXCEL | DAY 6 | TIER 2 / CPT

GAME OF EXAMS : HARYANA

1. Draw a Table with border and enter the following format and data exactly:

Employee Name	City Category	Basic Salary	DA	HRA	Gross Salary	Deductions	Net Salary
Harshit	Z	35400					
Pooja	Y	35400					
Rajni	X	35400					
Rahul	Z	35400					
Mandeep	Y	35400					
Anjali	X	35400					

2. Calculate DA @ 60% of the Basic Salary.

3. Calculate HRA using IF formula: HRA should be 10% of Basic Salary for City Category Z, 20% for City Category Y and 30% for City Category X.

4. Calculate Gross Salary (Basic Salary + DA + HRA).

5. Calculate Deductions @ 14% of Gross Salary.

6. Calculate Net Salary (Gross Salary - Deductions).

EXAM PRACTICE: Use the IF formula specifically for HRA calculation.

PRACTICE TEST – 4

COURT CLERK 2026 | EXCEL DAY 8 | TIER 2 / CPT

GAME OF EXAMS : HARYANA

1. Create the following table.

First Name	Gender	Mathematics	English	Science
Karan	Male	84	91	73
Mehak	Female	96	72	81
Rohit	Male	68	79	88
Simran	Female	75	63	94

2. Compute the total marks and percentage of each student. Create a new column as ‘Status’ after Total Marks by using following conditions:
If the total marks<150 so "Fail"
If the total marks>=150 so “Pass”

3. Make a new Heading on the top of table ‘Punjab and Haryana High Court, Chandigarh’, font size "14", font name ‘Cambria’ & make it ‘Bold’ & ‘Center’ align and merge it. Table field bold, italics, shade grey, Center align.

4. Insert a new row above 'SIMRAN' and write an imaginary data. Set the table data in ascending order Name wise.

5. Round off the Decimal place in percentage. Adjust ‘Height’ and ‘Width’ of cells as required.

EXAM PRACTICE: Attempt all formulas and formatting directly in Excel.

Game of Exams : Haryana

PRACTICE TEST – 5

COURT CLERK 2026 | EXCEL DAY 9 | TIER 2 / CPT

GAME OF EXAMS : HARYANA

1. Draw a Table with border and enter the following format and data exactly:

Name	Xxxx				
Roll No	Xxxx				
SALES RECORD					
SKU Code	**Product Name**	**Unit Price**	**Qty**	**Revenue**	**% of Total Revenue**
SKU-11	A4 Notebook	280	18		
SKU-14	Blue Ball Pen	150	35		
SKU-17	Geometry Box	325	16		
SKU-20	File Folder	190	28		
SKU-23	Highlighter Set	420	12		
Total					

1. Set paper size to ‘A4’, Orientation to ‘Portrait’ and Margin to ‘Narrow’.

2. Write your Name and Roll No. in the first two rows as shown above, change the font size to ‘12’ and font name to ‘Cambria’.

3. Merge the cells of Row 4, change the font size to ‘16’ and make it Bold, Underlined and Center aligned.

4. Make the titles (Row 5) center aligned, change the font size to ‘12’ and make it Bold.

5. Center aligned in Column A & B, figures (data entered in each concerned cell) right aligned.

6. Merge the cells of Row 11 as shown above, change the font size to 12 and make it Bold and Center aligned.

7. Calculate the values of Revenue, % of Total Revenue and Total.

8. Adjust Height and Width of cells as required.

9. Create border as given in above worksheet.

10. Save your Workbook with the name and Roll No. (<name>_<Roll No.>) in given format and also print this Worksheet.

EXAM PRACTICE — Complete the worksheet exactly as instructed.

Game of Exams Haryana

PRACTICE TEST – 6

COURT CLERK 2026 | EXCEL DAY 10 | TIER 2 / CPT

GAME OF EXAMS : HARYANA

Q.1. Create the following table with exact data, border format as shown above and save the file with name & roll no.

A to Z Repair Shop (Inventory List)					
ITEM NUMBER	**ITEM**	**UNIT COST**	**SELLING PRICE**	**MARKUP**	**%MARKUP**
0215	TYRES	65	70		
0228	BRAKES	72	98		
0241	ALARM	118	175		
0254	RADIO	190	255		
0267	BATTERY	58	77		
Total Unit Cost		?			
Total Cost Greater than 100		?			
Total SELLING PRICE less than 80			?		
Count				?	
Count of Markup less than 20				?	
Count of Markup greater than equal to 50				?	

Q.2. Find MARKUP, where MARKUP = SELLING PRICE – UNIT COST

Q.3. Find %MARKUP, where %MARKUP = MARKUP/UNIT COST.

Q.4. Format column F to include % and 3 decimal places.

Q.5. Calculate the TOTALS and COUNTS shown above using appropriate functions.

EXAM PRACTICE — Complete the worksheet in Excel exactly as instructed.

Game of Exams Haryana

PRACTICE TEST – 7

COURT CLERK 2026 | EXCEL DAY 11 | TIER 2 / CPT

GAME OF EXAMS : HARYANA

Q.1. Create a new workbook as shown below and save the file as per "Your_Name & Roll_No".

India Team Call Statistics				
Name	**No. of Calls**	**Hours Worked**	**Calls per Hour**	**Bonus**
Ravneet	42	5	?	?
Tamanna	6	4		
Teena	39	6		
Aryan	15	6		
Kanika	2	7		
Total	**?**	**?**	**?**	**?**
Bonus Rate	25%			

Q.2. Enter the labels and values in the exact cells locations as desired, format cell B12 to include % sign with Zero (0) Decimal Place.

Q.3. Apply the appropriate formula ad calculate the calls per hour in the given column.

Q.4. Apply the appropriate formula and calculate the Bonus of per hour in given column.

Q.5. Apply the appropriate formula and calculate the total in Row 10. Set the worksheet Vertically and Horizontally on the page.

EXAM PRACTICE — Recreate the worksheet in Excel and follow every instruction exactly.

Game of Exams Haryana

PRACTICE TEST – 8

COURT CLERK 2026 | EXCEL DAY 12 | TIER 2 / CPT

GAME OF EXAMS : HARYANA

Q.1. Draw the following table in Excel/spreadsheet:

1.	**2.**	**3.**
Court Name	**Criminal cases**	**Civil cases**
Supreme Court	425	318
Consumer Court	572	445
High Court	391	385
Session Court	357	229

Q.2. Calculate the total number of cases pending in each court, by inserting column no.4 in excel format in the table drawn under question no.1.

Q.3. Calculate the difference in number criminal and civil cases pending in each court, by inserting column no. 5 in excel format in the table drawn under question no.2.

Q.4. Redraw table on separate excel sheet showing in descending order court wise pendency of criminal cases.

Q.5. Redraw table on separate excel sheet showing percentage of civil cases pending in each court.

EXAM PRACTICE — Perform all calculations and create the two separate worksheets directly in Excel.

Game of Exams Haryana

PRACTICE TEST – 9

COURT CLERK 2026 | EXCEL DAY 13 | TIER 2 / CPT

GAME OF EXAMS : HARYANA

Q.1. Create the following table in Excel/spreadsheet:

Sr. no	Name	Hindi	English
I	Aman	52	78
II	Gurleen	68	91
III	Aakash	74	63
IV	Mansi	81	86
V	Pooja	69	49
VI	Karan	92	84

1. Insert a column of Science, SS and Math after Hindi Subject.

2. Marks in Science: 72, 65, 91, 48, 67, 88

Marks in SS: 84, 79, 76, 52, 61, 73

Marks in Math: 89, 74, 95, 46, 68, 82

3. Calculate the Total of marks.

4. Percentage of marks.

5. Calculate the Grade after percentage of marks if percentage is: >70 = A+ | >60 = A | >55 = B+ | >50 = B | <50 = C

EXAM PRACTICE — Enter the data exactly and perform all calculations in Excel.

Game of Exams Haryana

Excel IF Formula – Complete Guide

Syntax | Arguments | How to Apply | When to Use | Examples

COURT CLERK 2026 EXCEL SERIES

GAME OF EXAMS : HARYANA

1 What is IF Formula?

The **IF** formula in Excel is a logical function that checks a condition and returns one value if the condition is **TRUE** and another value if the condition is **FALSE**.

In simple words:
IF allows Excel to take a decision based on a condition.

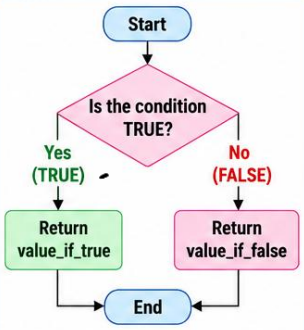

2 Syntax of IF Formula

```
=IF(logical_test, value_if_true, value_if_false)
```

Arguments:

logical_test	The condition you want to check (e.g., A1>50)
value_if_true	The value to return if the condition is **TRUE** (e.g., "Pass")
value_if_false	The value to return if the condition is **FALSE** (e.g., "Fail")

3 How Does It Work?

4 When to Use IF Formula?

- To assign grades based on marks
- To check pass or fail
- To categorize data (e.g., High/Low)
- To apply conditions in reports
- To create dynamic outputs
- To validate data (e.g., Yes/No)
- Useful in result sheets, attendance, sales reports, data analysis etc.

Use IF whenever you need Excel to take a decision based on a condition.

5 Simple Example

Find if a student has passed (marks ≥ 50).

A	B
Marks	**Result**
45	Fail
56	Pass
78	Pass
32	Fail

Formula in B2:
`=IF(A2>=50,"Pass","Fail")`

Explanation:
- If marks are 50 or more → Pass
- If marks are less than 50 → Fail

6 Example from Grading (Multiple IF using Nested IF)

Assign grades based on marks.

A	B
Marks	**Grade**
85	A+
67	A
58	B+
48	C

Formula in B2:
`=IF(A2>70,"A+",IF(A2>60,"A",IF(A2>55,"B+",IF(A2>50,"B","C"))))`

Explanation:
- Excel checks the first condition.
- If FALSE, it moves to the next condition.
- This is called a Nested IF.

7 Another Example (Text Output)

Check if sales is greater than target.

A	B
Sales	**Status**
120	Target Met
80	Not Met
150	Target Met
60	Not Met

Formula in B2:
`=IF(A2>=100,"Target Met","Not Met")`

Explanation:
- If sales ≥ 100 → Target Met
- If sales < 100 → Not Met

Important Points

- Use double quotes for text output (e.g., "Pass").
- Conditions return TRUE or FALSE.
- Logical operators: > (Greater than), < (Less than), >= (Greater than or equal), <= (Less than or equal), = (Equal), <> (Not equal).
- You can nest multiple IF conditions.
- Make sure your cell references are correct.

Common Mistakes

- Missing quotes for text (e.g., Pass instead of "Pass").
- Incorrect logical condition.
- Forgetting commas in the formula.
- Wrong cell reference.
- Not closing all parentheses.

Practice Make Perfect!

GAME OF EXAMS : HARYANA
https://testseriesonline.com/

Game of E

PRACTICE TEST – 10

COURT CLERK 2026 | EXCEL DAY 14 | TIER 2 / CPT

GAME OF EXAMS : HARYANA

Q.1. Create a new workbook as shown below and save the file as per “Your_Name & Roll_No”.

Patients Record					
Date	**Country**	**Confirmed Cases**	**Deaths**	**Active Cases**	**Death %age**
03/12/2020	India	20200	1050		
05/01/2021	Canada	7500	400		
08/01/2021	Ukraine	8800	1330		
11/02/2021	London	6500	650		
22/02/2021	Australia	3800	1108		

Q.2. Calculate the active cases for each country.

Q.3. Calculate the Death percentage with showing upto two decimal points.

Q.4. Add a Row at the bottom of table and merge the first two cells & calculate the total in all columns.

Q.5. Change the date format as 03 Dec, 2020.

Game of Exams Haryana

PRACTICE TEST – 11

COURT CLERK 2026 | EXCEL DAY 14 | TIER 2 / CPT

GAME OF EXAMS : HARYANA

1) Create this table at cell A11.

A	3500
B	6000
C	400
10% of A+B	
10% of B+C	
10% of A+B+C	

2) Type 225 in Roman format at cell A3.

3) Type date 23/3/2024 in format of (March 23, 2024) at cell A5.

4) Calculate square root of 25 using function at cell A7.

5) Calculate the 25% of value 25,500 at cell A9.

EXAM PRACTICE — Follow the exact cell references and formatting instructions in Excel.

Game of Exams Haryana

PRACTICE TEST – 12

COURT CLERK 2026 | EXCEL DAY 15 | TIER 2 / CPT

GAME OF EXAMS : HARYANA

Q.1. Create a new workbook and draw the following table exactly. Save the workbook as "Your_Name & Roll_No".

Sr. No.	Student Name	Hindi	English	Maths	Science	Total	Percentage	Grade
I	Aarav	72	68	81	75			
II	Mehak	45	58	52	49			
III	Rohan	88	91	84	86			
IV	Simran	63	55	47	72			
V	Kabir	39	44	51	46			
VI	Ananya	79	73	68	82			

Q.2. Calculate the Total Marks of each student using an appropriate Excel formula.

Q.3. Calculate the Percentage of each student. Each subject carries 100 marks. Show the percentage up to two decimal places.

Q.4. Calculate the Grade using the following conditions: >70 = A+ | >60 = A | >55 = B+ | >50 = B | <50 = C. Use an appropriate IF / Nested IF formula.

Q.5. Apply Conditional Formatting to the marks in Hindi, English, Maths and Science:.highlight marks below 50 with a red fill and dark red text; highlight marks 75 or above with a green fill and dark green text.

Q.6. Apply Conditional Formatting to the Percentage column using Data Bars, and then sort the complete table in descending order of Percentage without losing the student-wise data.

Skills Tested: Data Entry • SUM • Percentage • Nested IF • Conditional Formatting • Data Bars • Sorting • Decimal Formatting

https://typing-speed-test-dpw.pages.dev/

EXAM PRACTICE — Attempt the test first without looking at the solution.

Game of Exams Haryana

PRACTICE TEST – 13

COURT CLERK 2026 | EXCEL DAY 16 | TIER 2 / CPT

GAME OF EXAMS : HARYANA

Q.1. Create a new workbook and draw the following table exactly. Save the workbook as "Your_Name & Roll_No".

Sr. No.	Employee Name	Department	Basic Salary	Sales Target	Actual Sales	Bonus	Total Salary	Achievement %	Status
I	Aman	Sales	25000	50000	62000				
II	Neha	Sales	28000	60000	54000				
III	Rohit	Sales	30000	70000	82000				
IV	Simran	Sales	24000	45000	47000				
V	Karan	Sales	32000	80000	76000				
VI	Priya	Sales	27000	55000	39000				

Q.2. Calculate the Bonus for each employee. If Actual Sales are greater than or equal to Sales Target, Bonus is 10% of Basic Salary; otherwise Bonus is 5% of Basic Salary. Use an IF formula.

Q.3. Calculate Total Salary for each employee. Total Salary = Basic Salary + Bonus.

Q.4. Calculate Achievement % for each employee. Achievement % = Actual Sales ÷ Sales Target × 100. Show the result up to two decimal places.

Q.5. Enter Status using an IF formula: if Achievement % is greater than or equal to 100%, display "Target Achieved"; otherwise display "Target Not Achieved".

Q.6. Apply Conditional Formatting to Achievement %: highlight values below 80% with a red fill and values 100% or above with a green fill. Apply Data Bars to the Achievement % column.

Q.7. Sort the complete table in descending order of Achievement %. Make sure the complete employee record moves together while sorting.

Q.8. At the bottom of the table, calculate the Average Basic Salary and the Maximum Actual Sales using appropriate Excel functions.

Skills Tested: Data Entry • IF • Percentage • Arithmetic • Conditional Formatting • Data Bars • Sorting • AVERAGE • MAX

https://typing-speed-test-dpw.pages.dev/

EXAM PRACTICE — Attempt the complete test yourself before checking the solution.

Game of Exams Haryana

COURT CLERK 2026 – EXCEL SERIES
DAY 17 – PRACTICE TEST 14

Cumulative Practice: IF + Percentage + Conditional Formatting + Sorting + AVERAGE + MAX + COUNTIF

Scenario: Court Clerk Workload & Performance Report

Create an Excel worksheet to prepare a monthly performance report for six court clerks. Use formulas wherever a calculation is required. Do not type calculated values manually.

Sr. No.	Clerk Name	Section	Cases Assigned	Cases Disposed	Avg. Disposal Time (Days)	Completion %	Performance	Incentive	Remarks
1	Aman	Civil	120	108	4.2				
2	Neha	Criminal	150	126	5.1				
3	Rohit	Civil	110	104	3.8				
4	Simran	Family	90	81	4.5				
5	Karan	Criminal	175	140	5.6				
6	Priya	Family	100	95	4.0				

Tasks / Questions

1. Create the workbook and save it as Your_Name & Roll_No.
2. Enter the above data and format the table with borders. Keep the heading row clearly visible using Freeze Panes.
3. Calculate Completion % as Cases Disposed ÷ Cases Assigned. Format the result as Percentage with 2 decimal places.
4. Calculate Performance using Nested IF: if Completion % is 90% or above → “Excellent”; if it is 80% or above → “Good”; otherwise → “Needs Improvement”.
5. Calculate Incentive using IF: if Completion % is 90% or above, Incentive = 10% of a fixed monthly basic amount of ₹30,000; otherwise Incentive = 5% of ₹30,000. Enter ₹30,000 in a separate cell and use an absolute cell reference in the formula.
6. Calculate Remarks using IF: if Avg. Disposal Time is 4.5 days or less → “On Time”; otherwise → “Review”.
7. Apply Conditional Formatting to Completion %: below 80% = red fill with dark red text; 90% or above = green fill with dark green text.
8. Apply Data Bars to the Completion % column.
9. Sort the complete table by Completion % in descending order. Make sure the entire row moves together with the clerk’s name and other details.
10. At the bottom of the worksheet, calculate the Average of Cases Assigned, Average of Cases Disposed, and Maximum Cases Disposed using AVERAGE and MAX.
11. Use COUNTIF to count how many clerks have the Performance status “Excellent”.
12. Format the worksheet for printing: fit the table to one page wide, center the worksheet horizontally on the page, and keep the report neat and readable.

Important Formula Practice

```
Completion %: =E2/D2

Performance: =IF(G2>=90%,"Excellent",IF(G2>=80%,"Good","Needs Improvement"))

Incentive: =IF(G2>=90%,$B$15*10%,$B$15*5%)

Remarks: =IF(F2<=4.5,"On Time","Review")

Average Assigned: =AVERAGE(D2:D7)
```

Game of Exams Haryana

```
Average Disposed: =AVERAGE(E2:E7)

Maximum Disposed: =MAX(E2:E7)

Excellent Count: =COUNTIF(H2:H7,"Excellent")
```

Fixed Value for Incentive

Enter Monthly Basic Amount = ₹30,000 in a separate cell (for example B15) and use an absolute reference such as B15 in the Incentive formula.

Expected Learning Outcomes

This test combines the major Excel skills covered so far: data entry, formulas, IF/Nested IF, percentage calculation, absolute cell reference, conditional formatting, data bars, sorting, AVERAGE, MAX, COUNTIF, Freeze Panes and print/page setup.

https://typing-speed-test-dpw.pages.dev/

Game of Exams Haryana

COURT CLERK 2026 – EXCEL SERIES

DAY 19 – PRACTICE TEST 15 | TIER 2 / CPT

www.gameofexams.com

SUM • SUMIF • COUNT • COUNTIF • ROUND

Scenario: Court Clerk Case & Fee Report

Candidate Instructions

- Create an Excel workbook and save it as Your_Name_Roll_No.xlsx.
- Enter the following data exactly as given.
- Complete all 5 questions using Excel formulas/functions wherever required.
- Apply suitable formatting, borders, number formats and alignment.
- Do not use a calculator for calculations that can be performed using Excel functions.

Sr. No.	Clerk Name	Section	Cases Received	Cases Disposed	Filing Fees	Working Days	Attendance %	City	Status
1	Aman	Civil	125	108	48600	22	97.5	Jodhpur	Completed
2	Neha	Criminal	150	132	57250	21	95.8	Jaipur	Completed
3	Rohit	Civil	118	101	43800	23	98.2	Jodhpur	Completed
4	Simran	Family	95	84	39650	20	92.6	Delhi	Completed
5	Karan	Criminal	170	139	68400	22	89.4	Chandigarh	Pending
6	Priya	Family	105	97	42100	23	96.7	Jaipur	Completed
7	Mohit	Civil	140	112	51950	21	91.8	Delhi	Pending
8	Riya	Criminal	165	151	73100	23	99.1	Chandigarh	Completed
9	Arjun	Family	110	79	35250	19	87.5	Jodhpur	Pending
10	Kavya	Civil	130	121	55800	22	94.3	Jaipur	Completed

QUESTION 1 – Court Workload Summary (SUM)

Using the SUM function, calculate: (a) Total Cases Received, (b) Total Cases Disposed, and (c) Total Filing Fees collected. Display the three results clearly below the main table.

QUESTION 2 – Section-wise Analysis (SUMIF)

Using SUMIF, calculate: (a) total Cases Disposed by the Civil Section, (b) total Filing Fees collected by the Criminal Section, and (c) total Cases Received by the Family Section.

QUESTION 3 – Data Counting (COUNT & COUNTIF)

Using Excel counting functions, calculate: (a) the number of numeric entries in the Cases Received column, (b) the number of Completed clerks, (c) the number of Pending clerks, and (d) the number of clerks belonging to the Civil Section.

QUESTION 4 – Attendance Analysis (ROUND)

Calculate the average Attendance % and use the ROUND function to display the result up to 2 decimal places. Present the result as a percentage.

QUESTION 5 – Disposal Rate & Final Court Report

Game of Exams Haryana

Add a new column named 'Disposal Rate %'. Calculate each clerk's disposal rate as Cases Disposed ÷ Cases Received × 100 and use ROUND to display it to 2 decimal places. Then use COUNTIF to count how many clerks have a Disposal Rate of 90% or above. Finally, format the completed worksheet professionally for printing.

Formula Focus for this Test: SUM, SUMIF, COUNT, COUNTIF, ROUND

Candidate Name: _____ Roll No.: _____

Date: _____ Signature: _____

DAY 21 – PRACTICE TEST 17

TIER 2 / CPT – QUESTION PAPER

Question Paper

Q1 [2 Marks] : Enter heading 'COURT CASE DISPOSAL & INCENTIVE REPORT' in A1. Merge A1:I1, Bold and Center. Apply a suitable font size.

Q2 [2 Marks] : Row 2 headers: Emp ID, Clerk Name, Section, Cases Received, Cases Disposed, Basic, DA, Incentive, Total Earnings. Make Row 2 Bold and apply borders to the complete table.

Q3 [2 Marks] : Enter the 6 records given below. Calculate DA (Col G) using =ROUND(Basic*42%,2) for Civil section and =ROUND(Basic*38%,2) for Criminal/Family sections. Use an IF formula so the rate is selected automatically.

Q4 [2 Marks] : Calculate Incentive (Col H) using IF: if Cases Disposed is 100 or more, incentive is 8% of Basic; otherwise it is 5% of Basic. Then calculate Total Earnings (Col I) as ROUND(Basic+DA+Incentive,2).

Q5 [2 Marks] : In I9 find Total Earnings using =SUM(I3:I8). In G9 find Average DA using =ROUND(AVERAGE(G3:G8),2). In H9 count how many clerks received the higher 8% incentive using COUNTIF on the Incentive column or an equivalent COUNTIF criterion.

Data Entry Reference

Emp ID	Clerk Name	Section	Cases Received	Cases Disposed	Basic (₹)
HC21	Vikram	Civil	145	118	42000
HC22	Anjali	Criminal	132	96	38500
HC23	Manoj	Family	108	101	44750
HC24	Ritika	Civil	165	124	46800
HC25	Sahil	Criminal	98	73	35200
HC26	Meena	Family	152	112	41500

Formula Focus: IF + ROUND + SUM + AVERAGE + COUNTIF

Total Marks: 10 | Suggested Time: 12 Minutes

COURT CLERK 2026 – EXCEL SERIES

DAY 22 – PRACTICE TEST 18

TIER 2 / CPT – QUESTION PAPER

Question Paper

Q1 [2 Marks] : Enter heading 'STUDENT PERFORMANCE REPORT' in A1. Merge A1:H1, Bold and Center. Apply a suitable font size and border.

Q2 [2 Marks] : Row 2 headers: Roll No., Student Name, English, Maths, Science, Total, Percentage, Grade. Make Row 2 Bold and apply borders to the complete table.

Q3 [2 Marks] : Enter the 5 student records given below. Calculate Total (Col F) using SUM for the three subjects: =SUM(C3:E3). Copy the formula for all students.

Q4 [2 Marks] : Calculate Percentage (Col G) using =ROUND(F3/300*100,2). Then calculate Grade (Col H) using IF: Percentage >= 80 = A, >= 60 = B, >= 50 = C, otherwise D. Copy the formulas down.

Q5 [2 Marks] : In F8 find Total Marks of all students using =SUM(F3:F7). In G8 find Average Percentage using =ROUND(AVERAGE(G3:G7),2). In H8 count students with Grade A using =COUNTIF(H3:H7,"A").

Data Entry Reference

Roll No.	Student Name	English	Maths	Science
CC101	Aarav	78	86	82
CC102	Nisha	91	88	94
CC103	Rohan	67	72	69
CC104	Simran	84	76	81
CC105	Kunal	55	61	58

Formula Focus: SUM + ROUND + AVERAGE + IF + COUNTIF

Total Marks: 10 | Suggested Time: 10 Minutes

GAME OF EXAMS : HARYANA

Game of Exams Haryana

COURT CLERK 2026 – EXCEL PRACTICE TEST 19

TIER 2 / CPT • SALES & RETAIL PERFORMANCE REPORT

5 Questions × 2 Marks = 10 Marks | Suggested Time: 10 Minutes

Scenario: Create the following Sales & Retail Performance Report in Excel.

Emp ID	Salesperson	Category	Units Sold	Sales Amount (₹)
R101	Aman	Electronics	48	425,000
R102	Neha	Grocery	72	318,500
R103	Rohit	Fashion	55	287,000
R104	Simran	Electronics	64	396,000
R105	Karan	Grocery	81	352,500

Q1. [2 Marks] Enter the heading "RETAIL SALES PERFORMANCE REPORT" in A1, merge A1:H1, and apply Bold + Center alignment.

Q2. [2 Marks] Enter the column headings: Emp ID, Salesperson, Category, Units Sold, Sales Amount (₹), Commission (₹), Total Sales (₹), Performance.

Q3. [2 Marks] Calculate Commission in column F: if Sales Amount is ₹350,000 or more, commission = 5% of Sales Amount; otherwise commission = 3%. Use IF and copy the formula down.

Q4. [2 Marks] Calculate Total Sales in column G using Sales Amount + Commission. In column H, display "Excellent" if Total Sales is ₹400,000 or more, "Good" if it is ₹350,000 or more, otherwise "Needs Improvement". Use IF / Nested IF.

Q5. [2 Marks] At the bottom, calculate Total Units Sold using SUM, Total Sales Amount using SUM, Average Sales Amount using AVERAGE, and count the number of "Excellent" performers using COUNTIF.

Formula Focus: IF + Nested IF + SUM + AVERAGE + COUNTIF

COURT CLERK 2026 – EXCEL PRACTICE TEST 20

TIER 2 / CPT • OFFICE SUPPLIES PURCHASE REPORT

5 Questions × 2 Marks = 10 Marks | Time Limit: 10 MINUTES

NEW CONCEPTS: VLOOKUP + IFERROR + Data Validation + Absolute Reference

Scenario: Prepare an Office Supplies Purchase Report. Use the Product Master table to automatically fetch the unit price.

Item Code	Item Name	Quantity	Unit Price (₹)	Gross Amount (₹)	Discount %	Net Amount (₹)
P101	A4 Paper	12			5	
P102	File Folder	8			10	
P103	Stapler	5			5	
P104	Printer Ink	3			8	
P105	Pen Box	10			3	

Product Master (use this table for VLOOKUP):

Item Code	Item Name	Unit Price (₹)
P101	A4 Paper	250
P102	File Folder	120
P103	Stapler	180
P104	Printer Ink	950
P105	Pen Box	150

Q1. [2 Marks] Enter the heading "OFFICE SUPPLIES PURCHASE REPORT" in A1, merge A1:G1, and apply Bold + Center alignment. Apply suitable borders to the report.

Q2. [2 Marks] Create the main table and Product Master table exactly as given. In the Discount % column, create a Data Validation drop-down containing: 3, 5, 8, 10.

Q3. [2 Marks] Use VLOOKUP to fetch Unit Price in column D from the Product Master table using Item Code. Use an absolute reference for the lookup table and copy the formula down.

Q4. [2 Marks] Calculate Gross Amount in column E as Quantity × Unit Price. Then calculate Net Amount in column G after applying the Discount %. Use formulas and copy them down.

Q5. [2 Marks] At the bottom, calculate Total Net Amount using SUM. Also use IFERROR with VLOOKUP in one Unit Price formula so that an invalid/missing Item Code displays "Code Not Found" instead of an error.

Formula Focus: VLOOKUP + IFERROR + SUM + Percentage + Absolute Reference
